Objective of the Collaboration

IJCAI-23 thanks all sponsors for their generous support which allows us to increase support for students and academic researchers.

The easiest and most typical means by which sponsors may contribute to IJCAI-23 is through a flat amount of funding towards the organization of the conference in general. IJCAI-23 is pleased to offer several tiers of benefits to sponsors. In addition, the organizing committee will do its best to accommodate alternative forms of support. The intention of the IJCAI-23 Local Arrangements Committee is to ensure that all sponsors receive the highest recognition in return for their generous support to the conference.

Types of Collaborations

There are two types of collaborations available to IJCAI-23 partners.

- **Main Conference Collaboration**
Sponsors of IJCAI-23 enjoy various benefits, including free registration for the full technical conference, exhibit spaces, and display of their company logo in printed materials, on signs, on the web site and in the official conference app. See sponsorship levels on the next page.
- **Exhibition** See exhibition information on Page 7.
